identifies methodological problems in the philosophy of science and contemporary science particularly chemistry shows that lonergan s generalized empirical method can solve these problems topics discussed include the structure and unity of the sciences the thought and writings of bernard lonergan the relevance of lonergan s philosophy to solving problems associated with the scientific method and the structure and unity of the sciences methodological problems faced by chemists and the importance of lonergan s method for developing a solution for chemists methodological problems

this book has two aims the first aim is a modest attempt to help to overcome the neglect to which german expressionist paintings have been condemned by historians and art critics the second aim is more difficult from an educational perspective the book points out that a moving beauty and worthy truths call out from many german expressionist paintings at times this beauty and these truths may be comprehended straightforwardly to complement the direct encounter with these paintings the book suggests learning from concepts ideas and insights presented by existentialist philosophers the book shows that these concepts ideas and insights can assist in harkening to the call of beauty and truth that calls out from the paintings of the six german expressionist painters which are discussed here max beckmann otto dix ernst ludwig kirchner otto mueller karl schmidt rottluff and erich heckel thus they can assist the educator in showing the grandeur of the works of the six painters the book points to the educational value of the personal and existential encounter with the beauty and truths that call out from the paintings of these artists haim gordon is professor emeritus at ben gurion university of the negev in israel he has published at times in collaboration with colleagues 26 books and more than 150 papers in professional journals and books on philosophical educational and political topics he resides with his wife in eilat israel

the completely revised and updated edition of this methodological classic continues to provide practical comprehensive and strategic guidance on qualitative design purposeful sampling interviewing fieldwork observation methods and qualitative analysis and interpretation while integrating the extensive qualitative literature of the last decade new to this edition twelve

primary strategic themes of qualitative inquiry to clarify readers understanding of the different strands of qualitative research five distinct criteria based frameworks for presenting and judging qualitative findings sixteen different theoretical and philosophical approaches to qualitative inquiry identified compared and contrasted variations in observational methods including historical perspectives ethical issues and case studies alternative interviewing strategies and approaches including focus group interviews group interviews and cross cultural interviews additional new coverage on new issues in and approaches to fieldwork in depth treatment of emergent designs and purposeful sampling detailed analytical guidelines including software and computer assisted options strategies for enhancing quality and credibility of qualitative findings mixed methods and triangulation and a review and listing of the latest internet resources the book examines and honours both the science and art of qualitative inquiry the qualities that made previous editions of this widely used book so highly valued by both seasoned professionals and students continue to shine through in this revision including patton s extensive experience broad perspective inclusive sensitivity concrete examples pragmatic orientation and fine writing

a text that offers clear concise and practical real world treatment of key financial management topics with the assumption readers have little knowledge of financial concepts advanced math is eliminated from the theory sections and everyday math is geared towards making the material useful yet understandable supported by numerous worked out examples and graphical and intuitive presentations of math where appropriate written by a former cfo the book offers practical real world discussion of key topics including cross functional coverage of the agendas and biases decision makers across the firm may bring to a financial proposal

in 1880 oliver wendell holmes jr defined law as the predictions of what courts would do others particularly his intellectual opponent christopher columbus langdell perceived law as a system of language and rules this book offers an interpretation of american law and a method for judicial decision making donnelly offers a vision of american law as an activity engaged in by a variety of players including judges advocates for the plaintiff and defendants law reformers scholars and perhaps all of us a central argument is that law is concerned with persons and their relations arguably during the 20th century there was in jurisprudential thought a step by step piecemeal recovery of a role for the person in the law the next logical step in the 21st century is an explicitly person centered jurisprudence as interpretation of american law an important aspect of this book is its critique of both legal and general intellectual method lawyers concerned with critiques of judicial decision making judges law professors

and law students will find this book invaluable as will political scientists philosophers and social scientists the foreword to a personalist jurisprudence the next step is written by vice president joseph biden i think donnelly s work may well be an invaluable guide in considering what counts most in a supreme court justice a method for interpretation which will be in accord with his commitment to afford all persons deep respect and concern and try to understand persons their needs and their horizons joseph r biden jr vice president this book is recommended for those interested in jurisprudence legal philosophy or constitutional theory bimonthly review of law books may june 2003 all seven chapters are readable and superbly presented with excellent subsections and summary conclusions highly recommended choice magazine december 2003
